Contents

IMIA Yearbook of Medical Informatics 2010

President’s Statement
R. Haux
IMIA: The Global Informatics Perspective for Good Health
1

Editorial
C. A. Kulikowski, A. Geissbuhler
Biomedical Informatics: Building Capacity Worldwide
6

Section 1: Health and Clinical Management

Synopsis
D. Kubias
Health and Clinical Management — Maximising Health Care Efficiency for Better Outcomes. Supporting Health Care Professionals in the Ever-increasing Complexity of Patient Care
9

Best paper selection
Content summaries of*:

Section 2: Human Factors and Organizational Issues

Survey
Human Factors for Capacity Building. Lessons learned from the OpenMRS Implementer’s Network
13

Synopsis
R. Meyer
A Bio-medical Informatics Perspective on Human Factors. How Human Factors Influence Adoption of Information Technologies
21

Best paper selection
Content summaries of*:

* The complete papers can be accessed in the Yearbook’s full electronic version, provided that permission has been granted by the copyright holder(s)
Section 3: Health Information Systems

Survey
A. B. Marcelo
Health Information Systems: a Survey of Frameworks for Developing Countries

Synopsis
C. Bréant
Health Information Systems: Understanding Health Care IT Alignment

Best paper selection
Content summaries of*:

Section 4: Sensor, Signal and Imaging Informatics

Survey
D. L. Rubin, S. Napel
Imaging Informatics: Toward Capturing and Processing Semantic Information in Radiology Images

Synopsis
A. Depeursinge, H. Müller
Sensors, Medical Images and Signal Processing: Comprehensive Multi-modal Diagnosis Aid Frameworks

Best paper selection
Content summaries of*:

Section 5: Decision Support

Survey
G. Bediang, C. O. Bagayoko, A. Geissbuhler
Medical Decision Support Systems in Africa

Synopsis
P. Ruch
Findings from the Yearbook 2010 Section on Decision Support Systems

* The complete papers can be accessed in the Yearbook’s full electronic version, provided that permission has been granted by the copyright holder(s)
Best paper selection

Content summaries of*:

Section 6: Knowledge Representation and Management

Survey

C. G. Chute
Distributed Biomedical Terminology Development: From Experiments to Open Process 58

Synopsis

A.-M. Rassinoux
Knowledge Representation and Management: Transforming Textual Information into Useful Knowledge 64

Best paper selection

Content summaries of*:

Section 7: Education and Consumer Informatics

Survey

H. F. Marin
Nursing Informatics Education in the South: a Brazilian Experience 68

Synopsis

C. Boyer
Education and Consumer Informatics 72

Best paper selection

Content summaries of*:

* The complete papers can be accessed in the Yearbook’s full electronic version, provided that permission has been granted by the copyright holder(s)
Section B: Bioinformatics

Survey
E. Lang
In Cerebro and in Silico: Tissue Microarray (TMA) Techniques and Bioinformatics are Thriving Forces in Medical Science and Personalized Medicine

Synopsis
Y. L. Yip
Closing the Genotype-phenotype Gap. Findings from the Section on Bioinformatics

Best paper selection

Content summaries of*:

Reviews
M. Mars
Health Capacity Development Through Telemedicine in Africa

S. Akter, P. Ray
mHealth - an Ultimate Platform to Serve the Unserved

Research & Education
D. Detmer
Capacity Building in e-Health and Health Informatics: A Review of the Global Vision and Informatics Educational Initiatives of the American Medical Informatics Association

S. N. Sarbadhikari, S. B. Gogia
An Overview of Education and Training of Medical Informatics in India

S. Luo, K. Zhang, B. Li
Medical Informatics in China: Healthcare IT Trends, Academic and Research Developments

F. H. Roger France, C. Beguin, C. Mélot, P. Gillet
Board Certified Physicians in Health Informatics. A European Precedent for Professional Recognition

* The complete papers can be accessed in the Yearbook’s full electronic version, provided that permission has been granted by the copyright holder(s)
